

Report from Knit and Knatter - 14.11.2018 - 8 residents - Judy Tyler

Housing.....Houses should not be put in the Wensum Valley, the vista of a green area is very important. There should be a variety of housing, bungalows still wanted.

Taverham is quiet, there is a community feeling in cul-de-sacs and people say 'good morning'

Any new development needs infrastructure first.

Transport.....NDR needs completion

There should be wider garages ( can't get out of car once in garage)

Marriotts Way appreciated for walking and cycling.

Environment.....Green spaces very precious and green gap between Taverham and other villages important.

Business.....They supported a family pub and liked the idea of traditional shops (e.g. Hardware) but realised not likely to survive.

Community.....Suggested a green space in the Lidl area.

Medical facilities and school needed before any new building. Teenagers need something (Disabled children had good provision at the Hub in Horsford)
