## Visit to Youth Club

Children's views on what they like

Youth Club

Wish they could come more often

Like playing computer games and snooker table

Playing on the park after school

Going to Cubs and Scouts

Like the schools and the teachers

People who live in Taverham are very friendly

Nice to have lots of friends living in Taverham

What would make it even better

If there were more clubs like youth club

Bigger shelters in the park the older children usually get there first

Exciting things on the park like a zip wire

A swimming pool

An outside cinema

More things to do especially during the school holidays

They like the activities like the climbing wall, archery and circus skills which come during the school holidays but that is just for 1 day each week

Wished that the youth club opened all through the school holidays especially the Summer.

2 or 3 children decided they would like to help the community by doing jobs for people such as walking dogs for them.

Could this youth club be bigger and could they come more than once a week

Adults running it said it would be nice to have a bigger space. It is OK when the weather is fine as they can use the outside area but if it rains, or is particularly cold it is rather squashed there.

They have finally now, after many appeals, got sufficient adults (ratio of adults to children is always paramount), however they will soon have to say no more children, as there will not be enough room.

Advised of good behaviour of children attending. All session planned and although rather busy due to lack of space, the children were all busy, and eager to come and have a word with me.

No photos taken because of safeguarding issues
